This book constitutes the thoroughly refereed post-proceedings of the Third International Workshop on Machine Learning for Multimodal Interaction, MLMI 2006, held in Bethesda, MD, USA, in May 2006. The papers are organized in topical sections on multimodal processing, image and video processing, HCI and applications, discourse and dialogue, speech and audio processing, and NIST meeting recognition evaluation.

In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Did you have a troubled childhood? Did you have a hard time dealing with the changes of adolescence? Were you perpetually on the outside looking in? Did you turn toward Citizen Band or Amateur Radio? Did Lafayette Radio, Heath-kit or Allied Radio (Knight-kit) play an important part in your life? Do you ever think back to the days of your youth when life was simpler? Join me for a nostalgic look at the awkwardness of coming of age in the 60's and not being one of the \"in crowd\" in \"The Misfits of Channel 10.\"

The Sound System Design Primer is an introduction to the many topics, technologies, and sub-disciplines that make up contemporary sound systems design. Written in clear, conversational language for those who do not have an engineering background, or who think more in language than in numbers, The Sound System Design Primer provides a solid foundation in this expanding discipline for students, early/mid-career system designers, creative and content designers seeking a better grasp on the technical side of things, and non-sound professionals who want or need to be able to speak intelligently with sound system designers.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
