The collective volume *Ottoman Cyprus - New Perspectives* presents new studies on various topics (primarily history, but also history of art, folklore and literature) about Cyprus in the Ottoman period (1571-1878), offering new approaches on the history of institutions and developments in Cyprus during the Ottoman period, in an attempt to propose new interpretative frameworks and a more analytical reading of the historical past. The book is divided into four parts: The first part concerns the history of the island from the eve of the Ottoman conquest until the cession of the island to British administration. The studies of this part follow a chronological order, and analyze developments in Cyprus as an Ottoman province and part of the Empire's periphery. In the second part there are studies that analyze various particular historical topics, without necessarily following a chronological order. In the third part there are studies on literature, folklore and art. The fourth part includes an extensive

bibliographical guide, a catalogue of archives and archival material related to Cyprus in the Ottoman period, as well as chronological lists of important officials.

From 1211 until its loss to the Ottomans in 1669, the Greek island we know as Crete was the Venetian colony of Candia. Ruled by a paid civil service fully accountable to the Venetian Senate, Candia was distinct from nearly every other colony of the medieval period for the unprecedented degree to which the colonial power was involved in its governance. Yet, for Sally McKee, the importance of the Cretan colony only begins with the anomalous manner of the Venetian state's rule. *Uncommon Dominion* tells the story of Venetian Crete, the home of two recognizably distinct ethnic communities, the Latins and the Greeks. The application of Venetian law to the colony made it possible for the colonial power to create and maintain a fiction of ethnic distinctness. The Greeks were subordinate to the Latins economically, politically, and juridically, yet within a century of Venetian colonization, the ethnic differences between Latin and Greek Cretans in daily material life were significantly blurred. Members of the groups intermarried, many of them learned each other's language, and some even chose to worship by the rites of the other's church. Holding up ample evidence of acculturation and miscegenation by the colony's

inhabitants, McKee uncovers the colonial forces that promoted the persistence of ethnic labeling despite the lack of any clear demarcation between the two predominant communities. As McKee argues, the concept of ethnic identity was largely determined by gender, religion, and social status, especially by the Latin and Greek elites in their complex and frequently antagonistic social relationships. Drawing expertly from notarial and court records, as well as legislative and literary sources, *Uncommon Dominion* offers a unique study of ethnicity in the medieval and early modern periods. Students and scholars in medieval, colonial, and postcolonial studies will find much of use in studying this remarkable colonial experiment.

This book examines the various minorities living in the island of Cyprus from the early modern (late Venetian and early Ottoman) period down to the present day. It charts their history, with special emphasis on their relations with the powers ruling Cyprus and with the two dominant Christian-Greek and Muslim-Turkish communities. The theme running through the book is that despite being significant members of Cyprus' society, the three historical minorities (Maronites, Armenians and Latins) were only included in society to a certain extent by the two major communities. This was formalised in the post-independence (1960) period when they were compelled to become members of either

dominant community and thus they suffered 'internal exclusion' by being regarded as religious sub-groups of one of the two dominant communities rather than national minorities in their own right. Within this general context, the social, legal and political roles, customs, culture and language of the various minorities are examined as they evolved through time and in response to internal and external developments affecting Cyprus in the political, economic and global spheres. They are discussed not as static entities, but as evolving groups that have adapted with greater or lesser degrees of success to the radical and at times painful changes Cyprus has undergone, especially over the last 150 years, in all walks of life. Finally, the question of what the future holds for the minorities of the island in the light of Cyprus' EU membership and the prospect of reunification are also analysed. This book is a product of the conference "Minorities of Cyprus: Past, Present and Future", which was held on 24 and 25 November 2007 at the European University Cyprus.

In the age of the Grand Tour, foreigners flocked to Italy to gawk at its ruins and paintings, enjoy its salons and cafés, attend the opera, and revel in their own discovery of its past. But they also marveled at the people they saw, both male and female. In an era in which castrati were "rock stars," men served women as cicisbei, and

dandified Englishmen became macaroni, Italy was perceived to be a place where men became women. The great publicity surrounding female poets, journalists, artists, anatomists, and scientists, and the visible roles for such women in salons, academies, and universities in many Italian cities also made visitors wonder whether women had become men. Such images, of course, were stereotypes, but they were nonetheless grounded in a reality that was unique to the Italian peninsula. This volume illuminates the social and cultural landscape of eighteenth-century Italy by exploring how questions of gender in music, art, literature, science, and medicine shaped perceptions of Italy in the age of the Grand Tour.

Historian Eric R Dursteler reconsiders identity in the early modern world to illuminate Veneto-Ottoman cultural interaction and coexistence, challenging the model of hostile relations and suggesting instead a more complex understanding of the intersection of cultures. Although dissonance and strife were certainly part of this relationship, he argues, coexistence and cooperation were more common. Moving beyond the "clash of civilizations" model that surveys the relationship between Islam and Christianity from a geopolitical perch, Dursteler analyzes the lived reality by focusing on a localized microcosm: the Venetian merchant and diplomatic community in Muslim Constantinople. While factors such as religion, culture, and political status could be integral elements in constructions of self and community, Dursteler finds early modern identity to be more than the sum total of its constituent parts and reveals how the fluidity and malleability of identity in this time and place made coexistence among disparate cultures possible.

more than a long interval of decadence between the flowering of the Renaissance city-states and the progress of the Risorgimento. In this, comprehensive, introductory survey of the political, social, cultural, and economic history of early modern Italy—the first of its kind in the English language—Gregory Hanlon throws light on a neglected and influential era. Taking a thematic approach, the author covers all aspects of life in early modern Italy: the family, the Republics, Baroque art, religion, the economy, disease, philosophy, justice, and much more, building up a vivid picture of the so-called "forgotten centuries" of Italian history.

A vivid new account of one of the most decisive military encounters in history—the Battle of Lepanto

This book presents a comprehensive study of the literature of the Cretan Renaissance and relates it to its historical, social and cultural context. Crete, ruled by Venice from 1211 to 1669, responded to the stimulus of contact with the Renaissance in a body of narrative, personal and dramatic poetry, written in the Cretan dialect, and now regarded as an important influence on Modern Greek literature. The historical background is related to an examination of the structure of Veneto-Cretan society, while the central chapters

Based on a fascinating body of previously unexamined archival material, this book brings to life the lost voices of ordinary Venetians during the age of Catholic revival. Looking at scripts that were brought to the city's ecclesiastical courts by spouses seeking to annul their marriage vows, this book opens up the emotional world of intimacy and conflict, sexuality, and living arrangements that did not fit normative models of marriage.
