address the unique needs of K-12 students as they advance their understanding of our World. Unlike other classroom poster maps, the world maps use the Winkel-Triple projection, which provides the best combination of size, shape, and distance giving the student the best visual representation of the Earth's surface in two dimensions. This solves the effect seen on other maps where Greenland appears larger than South America. Our Beginner Series, grades K-3, contains an easy to read maps of the World and United States."Map Scale = 1:30,000,000Sheet Size = 51" x 40"

Introduce preschoolers to the wonders of the world with this beginner atlas, created with the map experts at National Geographic. Simple, colorful maps, bold pictures, and accessible text present basic geography, continent by continent, to spark kids' curiosity about the planet we inhabit. They'll learn elementary mapping skills and concepts such as the difference between a globe and a map. They'll learn answers to questions, like what is a compass rose? What features make up the land? Where is the ocean? And what are the countries where people (and animals) live? Reviewed by geography and early childhood consultants, this delightful atlas makes our world accessible to even the most junior explorers.

Our new graded-series of maps are the first to address the unique needs of K-12 students as they advance their understanding of our World. Unlike other classroom poster maps, ours utilize the Winkel-Triple projection, which provides the best combination of size, shape, and distance giving the student the best visual representation of the Earth's surface. This solves the effect seen on other maps where Greenland appears larger than South America. As kids progress, so do our maps! Our Political Series, grades 4-12, has up-to-date
