A companion to the popular introductory text in linguistics. A Linguistics Workbook is a supplement to Linguistics: An Introduction, sixth edition. It can also be used with other introductory and intermediate linguistics texts. Whereas most of the examples in the textbook are based on English, the workbook provides exercises in morphology, phonetics, phonology, syntax, and semantics, drawn from a wide variety of languages. This new edition has been updated, with exercises added.

Extensively revised and updated, the new Fourth Edition of Global Issues: An Introduction offers a unique approach to the most important environmental, economic, social, and political concerns of modern life. Revised and updated to reflect the latest global developments Examines the most important environmental, economic, social, and political concerns of modern life The only book of its kind to use the concept of development to illustrate how different global issues are interrelated Includes a new section on nuclear energy Chapter boxes examine ways that individuals can have a positive impact on the issues examined within the text Key features include a glossary of terms; guides to further reading, media, and Internet resources; and suggestions for discussing and studying the material

Why should we study language? How do the ways in which we communicate define our identities? And how is this all changing in the digital world? Since 1993, many have turned to Language, Culture, and Society for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology. This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century, such as issues of language and power, language ideology, and linguistic diasporas. Chapters on gender, race, and class also examine how language helps create-and is created by-identity. New to this edition are enhanced and updated pedagogical features, such as learning objectives, updated resources for continued learning, and the inclusion of a glossary. There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact. The discussion on race and ethnicity has also been expanded to include Latin- and Asian-American English vernacular.

This collection of classic and contemporary essays in philosophy of language offers a concise introduction to the field for students in graduate and upper-division undergraduate courses. It contains some of the most important basic sources in philosophy of language, including a number of classic essays by philosophers such as Frege, Russell, Wittgenstein, Kripke, Grice, Davidson, Strawson, Austin, and Putnam, as well as more recent contributions by scholars including John McDowell, Stephen Neale, Ruth Millikan, Stephen Schiffer, Paul Horwich, and Anthony Brueckner, among others, who are on the leading edge of innovation in this increasingly influential area of philosophy. The result is a lively mix of readings, together with the editors' discussions of the material, which provides a rigorous introduction to the subject.

This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.
