Differentiated Integration: Explaining Variation in the ...
politicization generate vertical and horizontal differentiation in the EU's system of differentiated integration. In a nutshell, we argue that vertical differentiation mainly results from variation in interdependence whereas horizontal differentiation is triggered by politicization. Internal

The European Union as a System of Differentiated Integration

Integration is one of the two main operations of calculus; its inverse operation, differentiation, is the other. Given a function f of a real variable x and an interval $[a , b]$ of the real line , the definite integral of f from a to b can be interpreted informally as the signed area of the region in the xy -plane that
