From gaining the right to vote in 1920 to holding honorable positions in politics and media, women have been empowering symbols for the new generation. But with every accomplishment comes criticism; the idea of feminism and the feminist movement have been a hot topic in popular culture for quite some time. With the gradual deterioration of typical gender roles in the homes of America, it appears as though women are taking a giant leap for humanity.

Feminism and Pop culture By: Brittany Stevers In the recent history, feminism and pop culture have become more closely entwined than ever before. This can be partially because of the growing interest in culture studies as an academic discipline, but it can also be explained by the fact that, there ' s a whole lot more popular culture to watch. Pop culture has become our common language, a universal way of uniting the world. Pop culture is also a key route to making the concept of feminism ...

Those reports of feminism's death may have been greatly exaggerated, and yet contemporary popular culture often conjures up a world in which feminism had never even been born, a fictional universe filled with suburban Stepford wives, maniacal career women, alluring amnesiacs, and other specimens of retro femininity. In [Feminism and Popular Culture](#), Rebecca Munford and Melanie Waters consider why the twenty-first century media landscape is so haunted by the ghosts of these traditional figures ...

[Feminism and Popular Culture: Investigating the ...](#)

Feminism has affected culture in many ways, and has famously been theorized in relation to culture by Angela McRobbie, Laura Mulvey and others. Timothy Laurie and Jessica Kean have argued that "one of most important innovations has been to seriously examine the ways women receive popular culture, given that so much pop culture is made by and for men." This is reflected in a variety of forms, including literature, music, film and other screen cultures.

[Feminism in culture - Wikipedia](#)

Feminist theory has many opinions of pop culture and these opinions allow feminists to analyze and understand culture in a very unique way. Feminist theories are important when looking at pop culture, they stem from feminism, and many of their issues with pop culture arise from how both women and men are portrayed.

When it comes to feminism, pop culture aids us in translating feminist philosophies, issues, and concepts into everyday language, making them relevant and relatable. In *Feminism and Pop Culture*, author and cofounder of Bitch magazine Andi Zeisler traces the impact of feminism on pop culture (and vice versa) from the 1940s to the present and beyond.

Examines the reciprocal relationship shared between feminism and popular culture from the 1940s to the twenty-first century; and discusses representations of women on television and in films, music, advertisements, and other medias.

Based on a diverse range of texts and sites, including: Bridget Jones, African-American music videos, news coverage, radio shows, the *Scream* trilogy, *Sex and the City* and hip hop the authors analyse how different meanings of feminism have been negotiated within popular culture and how popular culture has made sense of feminism.

*Feminist Theory and Pop Culture* synthesizes feminist theory with modern portrayals of gender in media culture. This comprehensive and interdisciplinary text includes an introductory chapter written by the editor as well as nine contributor chapters of original content. Included in the text: • Historical illustration of feminist theory • Application of feminist research methods for the study of gender • Feminist theoretical perspectives such as the male gaze, feminist standpoint theory, Black feminist thought, queer theory, masculinity theory, theories of feminist activism and postfeminism • Contributor chapters cover a range of topics from Western perspectives on Belly Dance classes to television shows such as *GIRLS*, *Scandal* and *Orange is the New Black*, as well as chapters which discuss gendered media forms like "chick lit", comic books and Western perspectives of non-Western culture in film • Feminist theory as represented in the different waves of feminism, including a discussion of a fourth wave • Pedagogical features • Suggestions for further reading on topics covered • Discussion questions for classroom use *Feminist Theory and Pop Culture* was designed for classroom use and has been written with an eye toward engaging students in discussion. The book's polished perspective on feminist theory juxtaposes popular culture with theoretical perspectives which have served as a foundation for the study of gender. This interdisciplinary text can serve as a primary or supplemental reading in undergraduate or graduate courses which focus on gender, pop culture, feminist theory or media studies. "This excellent anthology grounds feminism as articulated through four waves and features feminists responding to pop culture, while recognizing that popular culture has responded in complicated ways to feminisms. Contributors proffer lucid and engaging critiques of topics ranging from belly dancing through *Fifty Shades of Grey*, *Scandal* and *Orange is the New Black*. This book is a good read as well as an excellent text to enliven and inform in the classroom." Dr. Jane Caputi Professor of Women, Gender and Sexuality Studies and Communication & Multimedia at Florida Atlantic University "Feminist Theory and Pop Culture is destined to be as popular as the culture it critiques. The text plays up the paradoxes of contemporary feminism and requires its readers to ask difficult questions about how and why the popular bring us pleasure. It is a contemporary collection that captures this moment in feminist time with diverse analyses of women's representations across an impressive swath of popular culture. *Feminist Theory and Pop Culture* is the kind of text that makes me want to redesign my pop culture course. Again." Dr. Ebony A. Utley, Assistant Professor of Communication at California State University-Long Beach, author of *Rap and Religion* Adrienne Trier-Bieniek, Ph.D. is a professor of sociology at Valencia College in Orlando, Florida. She is the author of *Sing Us a Song, Piano Woman: Female Fans and the Music of Tori Amos* (Scarecrow 2013) and the co-editor of *Gender & Pop Culture: A Text-Reader* (Sense 2014). In this accessible introductory guide, the author identifies key feminist approaches to popular culture from the 1960s to the present and demonstrates how the relationship between feminism, femininity and popular culture has often been a troubled one. The book introduces the central ideas of both second-wave feminism and feminist cultural studies and demonstrates how they inform feminist debates about a range of popular forms and practices through a series of case studies: the woman's film; romantic fiction; soap opera; consumption and material culture; fashion and beauty practices; and youth culture and popular music.

Feminism has dramatically influenced the way literary texts are read, taught and evaluated. Feminist literary theory has deliberately transgressed traditional boundaries between literature, philosophy and the social sciences in order to understand how gender has been constructed and represented through language. This lively and thought-provoking Companion presents a range of approaches to the field. Some of the essays demonstrate feminist critical principles at work in analysing texts, while others take a step back to trace the development of a particular feminist literary method. The essays draw on a range of primary material from the medieval period to postmodernism and from several countries, disciplines and genres. Each essay suggests further reading to explore this field further. This is the most accessible guide available both for students of literature new to this developing field, and for students of gender studies and readers interested in the interactions of feminism, literary criticism and literature.

Subverting stereotypical images of women, a new generation of feminist artists is remaking the pin-up, much as Annie Sprinkle, Cindy Sherman, and others did in the 1970s and 1980s. As shocking as contemporary feminist pin-ups are intended to be, perhaps more surprising is that the pin-up has been appropriated by women for their own empowerment since its inception more than a century ago. *Pin-Up Grrrls* tells the history of the pin-up from its birth, revealing how its development is intimately connected to the history of feminism. Maria Elena Buszek documents the genre's 150-year history with more than 100 illustrations, many never before published. Beginning with the pin-up's origins in mid-nineteenth-century carte-de-visite photographs of burlesque performers, Buszek explores how female sex symbols, including Adah Isaacs Menken and Lydia Thompson, fought to exert control over their own images. Buszek analyzes the evolution of the pin-up through the advent of the New Woman, the suffrage movement, fanzine photographs of early film stars, the Varga Girl illustrations that appeared in *Esquire* during World War II, the early years of *Playboy* magazine, and the recent revival of the genre in appropriations by third-wave feminist artists. A fascinating combination of art history and cultural history, *Pin-Up Grrrls* is the story of how women have publicly defined and represented their sexuality since the 1860s.

While some have argued that we live in a 'postfeminist' era that renders feminism irrelevant to people's contemporary lives this book takes 'feminism', the source of eternal debate, contestation and ambivalence, and situates the term within the popular, cultural practices of everyday life. It explores the intimate connections between the politics of feminism and the representational practices of contemporary popular culture, examining how feminism is 'made sensible' through visual imagery and popular culture representations. It investigates how popular culture is produced, represented and consumed to reproduce the conditions in which feminism is valued or dismissed, and asks whether antifeminism exists in commodity form and is commercially viable. Written in an accessible style and analysing a broad range of popular culture artefacts (including commercial advertising, printed and digital news-related journalism and commentary, music, film, television programming, websites and social media), this book will be of use to students, researchers and practitioners of International Relations, International Political Economy and gender, cultural and media studies.

DIVFeminist essays examining postfeminism in American and British popular culture./div

In this lively, accessible, and provocative collection, Aph and Syl Ko provide new theoretical frameworks on race, advocacy for nonhuman animals, and feminism. Using popular culture as a point of reference for their critiques, the Ko sisters engage in groundbreaking analysis of the compartmentalized nature of contemporary social movements, present new ways of understanding interconnected oppressions, and offer conceptual ways of moving forward expressive of Afrofuturism and black veganism.
