[Intellectuals and Society](#) is a non-fiction book by Thomas Sowell. The book was initially published on January 5, 2010 by Basic Books. Intellectuals are defined as "idea workers" that exercise profound influence on policy makers and public opinion, but are often not directly accountable for the results. [Intellectuals and Society](#) examines the record of these idea workers and the conditions, methods and incentives driving their points of view that, according to Sowell, have often resulted in disast

[Intellectuals and Society - Wikipedia](#)

Thomas Sowell analyses intellectuals' self-confident promotion of their empirically challenged ideas via media, aides and activists, the influence of those ideas on governments and societies in place of experience or evidence, and the damage caused.

The key to understanding what Thomas Sowell means when he talks about intellectuals is that intellectuals are not simply "thinking people." Intellectuals are people whose "end product" is simply an idea, and this idea is not subject to traditional real-world validation processes, but is subjected to the weaker form of validation known as peer review.

[Intellectuals and Society by Thomas Sowell](#)

As this passage from the preface of Thomas Sowell's book [Intellectuals and Society](#) suggests, we currently live in an era where intellectuals have immense influence. With that being said there have been few examinations of the role that intellectuals have played in course of societal development over the past several generations.

[Intellectuals and Society - Academy of Ideas](#)

This book review of Thomas Sowell's [Intellectuals and Society](#), originally published in 2012, has been removed. The original review included the line "easy for a rich white man to say" in reference to the book's author, Thomas Sowell. This was a factually inaccurate and offensive error.

[LSE Review of Books](#)

Thomas Sowell analyses intellectuals' self-confident promotion of their empirically challenged ideas via media, aides and activists, the influence of those ideas on governments and societies in place of experience or evidence, and the damage caused.
