With over 20 million people on its payroll, the government is the largest employer in the

country. Managing people who do the nation ' s work is of critical importance to politicians, government leaders, and citizens alike. *Personnel Management in Government: Politics and Process*, eighth edition, examines the progress and innovations that public personnel professionals are making to address changes in the political, legal, and managerial environment of government. It provides students with a comprehensive understanding of human resource management within its historical and political context in the public sector. A number of new developments are addressed in the eighth edition, including discussion of: Human resource management in nonprofit organizations in an all-new, dedicated chapter Current and future challenges to recruitment and hiring, including the use of social media in recruitment Privatization and contracting out The rise of employment "at will" policies Digital technology or "digitalization" in HRM and the need to enhance cybersecurity Managing performance with human capital analytics Increased reliance on telework States ' attacks on public sector labor unions HRM changes under the Trump administration Since publication of the first edition in 1977, *Personnel Management in Government* has addressed issues not yet considered mainstream, but that have proven central to the development of the field over time. This long-standing but no less innovative textbook is required reading for all students of public, government, and non-profit personnel management.

Bowman/Kearney/Scavo's *STATE AND LOCAL GOVERNMENT*, 11th edition equips you with the knowledge and tools to develop your own well-informed positions on the divisive issues currently facing our nation. This bestseller delivers comprehensive coverage of institutions, political behavior and policymaking at the state and local level and highlights politics at the grassroots level. Thoroughly updated, the new edition includes expansive coverage of the impact of the COVID-19 pandemic on state and local government as well as insight on how local governments are attempting to deal with global climate change. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book reviews the techniques, mechanisms and architectures of the way disputes are processed in England and Wales. Adopting a comparative approach, it evaluates the current state of the main different types of dispute resolution systems, including business, consumer, personal injury, family, property, employment and claims against the state. It provides a holistic overview of the whole system and suggests both systemic and detailed reforms. Examining dispute resolution pathways from users' perspectives, the book highlights options such as ombudsmen, regulators, tribunals and courts as well as mediation and other ADR and ODR approaches. It maps numerous sectoral developments to see if learning might be spread to other sectors. Several recurrent themes arise, including the diversification in the use of techniques; adoption of digital, online and artificial technology; cost and funding constraints; the emergence of new intermediaries; the need to focus accessibility arrangements for people and businesses that need help with their problems; and identifying effective ways for achieving behavioural change. This timely study analyses the shift from adversarial legalism to softer means of resolving social problems, and points to a major opportunity to devise an imaginative and holistic strategic vision for the jurisdiction.

This comprehensive overview of Kentucky's workers' compensation law outlines a dependable system for representing claimants in settlement hearings and appeals. It provides a compact

reference, with recent amendments, rules and decisions readily available, in the office, at home, or in court. The text discusses employer-employee relationship, elements of a case, work-relatedness, disability and death, medical and income benefits, third party actions, and more. Relevant statutes, regulations, charts, tables, and forms complete the total system approach. Kentucky Workers' Compensation is updated on an annual basis, so you always have the most current information.

Austerity ' s impacts on the healthcare, social care and education professions are under the spotlight in this important book. From scarcer resources to greater stresses, and falling training budgets to rising risks, it charts how policies and cuts have compromised workers ' ability to undertake their professional roles. It combines research and practice experience to assess the extent of de-professionalisation in recent years, and how workers have responded. This book is a vital review of how austerity has resculpted our notions of professionalism.

The economic and social impact of the COVID-19 pandemic over the past year has been well-managed by the authorities. Timely and prudent fiscal and monetary easing shielded the economy from the full brunt of the crisis, while alleviating the health and social impact of the shock. Sound economic policies helped deliver macroeconomic stabilization, safeguard debt sustainability, and preserve investor confidence. While growth is expected to rebound in FY2021/22, the outlook is still clouded by uncertainty related to the pandemic and the pace of vaccinations. High public debt and large gross financing needs leave Egypt vulnerable to external shocks or changes in financial market conditions for EMs. Near-term fiscal and monetary policies should thus continue to support the recovery without accumulating undue imbalances.

This book focuses on four topical and interconnected, innovative pathways to civil justice within the context of securing and improving access to justice: the use of Artificial Intelligence and its interactions with judicial systems; ADR and ODR tracks in privatising justice systems; the effects of increased self-representation on access to justice; and court specialization and the establishment of commercial courts to counter the trend of vanishing court trials. Top academics and experts from Europe, the US and Canada address these topics in a critical and multidisciplinary manner, combining legal, socio-legal and empirical insights. The book is part of ' Building EU Civil Justice ', a five-year research project funded by the European Research Council. It will be of interest to scholars and policymakers, as well as practitioners working in the areas of civil justice, alternative dispute resolution, court systems, and legal tech. The chapters " Introduction: The Future of Access to Justice – Beyond Science Fiction " and " Constituting a Civil Legal System Called " Just " : Law, Money, Power, and Publicity " are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Next year (2018), we will be celebrating the 15th anniversary of the International Journal of Environmental Research and Public Health—IJERPH (ISSN 1660-4601). Hence, we are currently organizing a Special Issue to commemorate this important milestone. Founded in 2004, IJERPH has experienced a tremendous growth in terms of the number and quality of scientific publications. With a 2016 impact factor of 2.101, IJERPH now ranks among the top international journals in the emerging field of environmental research and public health. As described on our website (<https://www.mdpi.com/journal/ijerph>), IJERPH is a peer-reviewed journal that focuses on the publication of scientific and technical information on the impacts of natural phenomena and anthropogenic factors on the quality of our environment, the interrelationships between environmental health and the quality of life, as well as the socio-

cultural, political, economic, and legal considerations related to environmental stewardship and public health. Its primary areas of research interests include: Gene-environment interactions Environmental genomics and proteomics Environmental toxicology, mutagenesis and carcinogenesis Environmental epidemiology and disease control Health risk assessment and management Ecotoxicology, and ecological risk assessment and management Natural resources damage assessment Environmental chemistry and computational modeling Environmental policy and management Environmental engineering and biotechnology Emerging issues in environmental health and diseases Environmental education and public health To help celebrate the 15th anniversary, you are kindly invited to submit original articles, critical reviews, research notes, and short communications on any of the above-listed topics. Please also encourage any of our colleagues who may be interested to submit manuscripts. We expect that this issue will attract considerable attention, as we prepare to celebrate the excellent scientific contributions and socio-economic impacts of IJERPH over the past 15 years.
