French philosopher Emile Durkheim's book The Division of Labor in Society (or De la Division du Travail Social) debuted in 1893. It was his first major published work and the one in which he introduced the concept of anomie or the breakdown of the influence of social norms on individuals within a society.

*A Summary of Durkheim's 'Division of Labor in Society'*

Division of labour, the separation of a work process into a number of tasks, with each task performed by a separate person or group of persons. It is most often applied to systems of mass production and is one of the basic organizing principles of the assembly line. Breaking down work into simple repetitive tasks eliminates unnecessary motion and limits the handling of different tools and parts.
