Silences have a purpose in music – they help to distinguish different sections of the score, they allow listeners to shift their attention from one syntactic unit to the next (Knösche et al., 2004), and they help us lay down memory for the tune (Deutsch, 1980).

The tense silence between two movements—in itself music, in this environment—leaves wider scope for divination than the more determinate, but therefore less elastic, sound. When Hindemith read that, he proposed a work consisting of nothing but pauses and fermatas.

You don't have to be an opera fan to appreciate this beautifully written memoir by world-famous tenor Andrea Bocelli. Born among the vineyards of Tuscany, Bocelli was still an infant when he developed glaucoma. Music filtering into his room soothed the unsettled child. By the age of twelve he was completely blind, but his passion for music brought light back into his life. Here Bocelli reveals the anguish of his blindness and the transcendent experience of singing. He writes about his loving parents, who nurtured his musical interests, the challenges of learning to read music in Braille and of competing in talent shows, his struggles with law school, and his desire to turn an avocation into a way of life. He describes falling in love and singing in piano bars until his big break in 1992, when a stunned Pavarotti heard him sing "Miserere." The international acclaim and success that have followed Bocelli ever since have done nothing to dull his sense of gratitude and wonder about the world. No classical music fan can afford to be without this engaging and humble memoir of a fascinating and triumphant star.

The acclaimed singer offers a new edition of his memoir on his life and career in the form of a novel, describing the defective eyesight that left him blind at the age of twelve and his rise to the heights of success in the world of international music.

Provides insight into the philosophy and spiritual world behind the music of one of the leading present-day composers. This book will find a sympathetic readership among modern music-lovers and anyone who senses the gap between contemporary culture and humanity's deepest spiritual values.

The contributions in this volume focus on the ways in which silence and music relate, contemplate each other and provide new avenues for addressing and gaining understanding of various realms of human endeavour. The book maps out this little-explored aspect of the sonic arena with the intention of defining the breadth of scope and to introduce interdisciplinary paths of exploration as a way forward for future discourse. The contributions reveal that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis, encompassing not just Western art traditions, but the relationship between music, silence, the human psyche and sociological trends - ultimately, providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being.

Andras Schiff is one of the most important pianists of our time. This stimulating account of his life and work, told in two parts, takes readers on an intimate journey from Schiff's childhood in Hungary through to the present day. In conversationw with Martin Meyer, Schiff discusses a diverse range of topics from his experiences with anti-Semitism and communist rule to his musical training with maestros such as Pál Kadosa and Ferenc Rados, as well as his thoughts on playing techniques and musical interpretation. In a collection of Schiff's writings we are enthralled by a guided tour of Bach's 'Goldberg' Variations, sobered by Schiff's public defiance against nationalistic and racist attitudes - to the extent that he refused to perform in Haider's Austria or Orban's Hungary - and delighted by the playful 'Ten Commandments' for concertgoers. More than a memoir, this is a seminal compilation of the thoughts and experiences of one of the greatest musicians of our time, of his inimitable art of making music out of silence.

Increasingly popular in the United States and Europe, Andean panpipe and flute music draws its vitality from the traditions of rural highland villages and of rural migrants who have settled in Andean cities. In *Moving Away from Silence*, Thomas Turino describes panpipe and flute traditions in the context of this rural-urban migration and the turbulent politics that have influenced Peruvian society and local identities throughout this century. Turino's ethnography is the first large-scale study to concentrate on the pervasive effects of migration on Andean people and their music. Turino uses the musical traditions of Conima, Peru as a unifying thread, tracing them through the varying lives of Conimeos in different locales. He reveals how music both sustains and creates meaning for a people struggling amid the dramatic social upheavals of contemporary Peru. *Moving Away from Silence* contains detailed interpretations based on comparative field research of Conimeo musical performance, rehearsals, composition, and festivals in the highlands and Lima. The volume will be of great importance to students of Latin American music and culture as well as ethnomusicological and ethnographic theory and method.
